New ‘*Muzzled Truth*’ Book Reveals California Department of Public Health Ignored Biden Cabinet Official’s COVID-19 Vaccines ‘Are Killing People...’ Comment

ELK GROVE, CA - A Biden Administration health official said COVID-19 vaccines are killing people of color at about two times the rate of White Americans, former California Department of Public Health (CDPH) Information Officer 2 Ronald F. Owens Jr. reports in his highly anticipated book titled *Muzzled Truth: How the California Department of Public Health Rejected COVID-19 Treatment and Vaccine Health Risks Warnings*. (\$13.99, paperback, 979-8-989-77690-0, \$6.99, eBook, 979-8-989-77691-7).

“We know that vaccines are killing people of color, Blacks, Latinos, Indigenous People at about two times the rate of White Americans,” United States Department of Health and Human Services Secretary Xavier Becerra said at the White House’s “Convening on Equity” virtual summit on April 14, 2022.

In this groundbreaking book, Owens reveals that he shared with CDPH leadership on multiple occasions what Secretary Becerra said about the risks associated with COVID-19 vaccines. But they muzzled him and initiated disciplinary action against him for telling the truth. That Becerra quote is at the 45:50 mark of this <https://youtu.be/_VhHn06REHM> White House’s official YouTube video.

Of particular concern, *Muzzled Truth* uncovers how CDPH senior leadership intentionally concealed the fact that properly dosed ivermectin can effectively treat those infected with COVID-19. By doing so, lives were put at risk, and Californians were deprived of the opportunity to make well-informed decisions about their health.

Ronald F. Owens Jr. has written five other books, available online at <<https://ronaldfowensjr.com>>. He brings nearly 30 years of California state service to his compelling narrative, drawing from his extensive experience as a communications and public affairs professional. Having retired from CDPH in 2023, Owens provides a unique insider’s perspective, making *Muzzled Truth* a must-read for those concerned about public health, pandemic response, and ethical leadership.

Muzzled Truth: How the California Department of Public Health Rejected COVID-19 Treatment and Vaccine Health Risks Warnings is now available online at Amazon and Barnes & Noble.
