Charles Ford Champion II

President & CEO

California News Publishers Association (CNPA)

(610) 613-3122 <chuck@cnpa.com>

The public has a right to know that a federal health chief said COVID-19 “vaccines are killing people...,” and the press has an ethical and moral obligation to inform them.

Hello Mr. **Champion**, as you probably recall I served CNPA between 1987-1992 as CNPA's Publications Editor. During that five-year period I produced fifty-six *California Publishers*, CNPA's then-monthly newspaper. A couple years after I departed CNPA I embarked on a nearly thirty-year career in California state civil service. I was a communications professional at the Department of Toxic Substances Control (DTSC), the Department of Motor Vehicles (DMV), and the California Community Colleges Chancellor's Office (CCCCO). Furthermore, I was an Information Officer 2 with CDPH's Office of Public Affairs—now branded as the Office of Communications— from March 2, 2009 to December 31, 2023. During my last eighteen months at CDPH, I shared with CDPH leadership on multiple occasions about COVID-19 vaccine health risks warnings. Here's what I shockingly learned what a federal health chief said more than three years ago.

“We know that [COVID-19] vaccines are killing people of color, Blacks, Latinos, Indigenous People at about two times the rate of White Americans,” said United States Department of Health and Human Services Secretary **Xavier Becerra** on April 14, 2022, during the White House's Convening on Equity Summit.

Secretary **Becerra's** *“Secondly, by having better data we can do a couple things—vaccines, a year ago today, by the way we know that vaccines are killing people...”* quote appears on the White House's official YouTube channel ([source 1](#)), and begins at the 45:50 mark. To listen to **Becerra's** quote in context, scroll back to the 42:53 mark to hear the question asked of Housing and Urban Development (HUD) Secretary **Marcia Fudge**, as well as Secretary **Becerra**.

On April 18, 2022, I shared with CDPH leadership what Secretary **Becerra** said about the risks associated with COVID-19 vaccines. I also emailed Vaccine Adverse Events Reporting System (VAERS) data ([source 2](#)) to CDPH management. This data indicated thousands of deaths, hospitalizations, urgent care visitations and doctor office visits. This data also displayed the number of people who developed serious injuries —i.e., anaphylaxis, Bell's Palsy, miscarriages, heart attacks, myocarditis/pericarditis, permanently disabled, thrombocytopenia/low platelet, life threatening, severe allergic reaction and shingles— as a result of being injected with COVID-19 vaccines. I noted that small pox vaccine program for healthcare workers back in 2003 was halted just after two deaths, according to an August 22, 2003, *New Scientist* article ([source 3](#)). I also

noted some medical subject matter experts indicate VAERS data reflects only a very small number of actual injuries and deaths. *LifeSite News* reported some of this same data on June 7, 2022 ([source 4](#)).

I do not know whether my management apprised CDPH senior leadership, informed then-California Health and Human Services Secretary Dr. **Mark Ghaly**, or alerted California Gov. **Gavin Newsom**, as I recommended ([source 5](#).)

CDPH management told me in a subsequent email that it appears that Secretary **Becerra** misspoke. They said he was actually discussing deaths associated with COVID-19, not the vaccines.

During my nearly thirty year California state civil service career, I have served as a Reserved Public Information Officer (PIO) at the Governor's Office of Emergency Services, and a permanent PIO at DMV, CCCC and CDPH. I have been involved with formulating, drafting, formatting, disseminating and posting hundreds of news releases. Anytime there was a misstatement or missing word or typographical error committed by me or by my PIO colleagues or by our subject matter experts—it's just common practice to correct the record, and that's what we did.

If Secretary **Becerra** misspoke why did we not hear HUD Secretary **Fudge**, Domestic Policy Advisor **Susan Rice** and/or Office of Management and Budget Director **Shalanda Young** immediately ask him to correct his misstatement? And why is that video still on the White House's official YouTube Channel for millions to see and hear?

Unfortunately, CDPH management did not take this alarming information I provided to them seriously. They made it about me, and not about you and yours and forty million other Californians. Initially, I was politely ignored, subsequently disciplined and then ultimately muzzled. I was issued a counseling memorandum for sharing with management this alarming information, which they should have informed Californians way back in April, 2022.

While I am a black person who loves all humanity the optics here smacks of racism. A Latino (**Becerra**) informs two African American women (**Rice** and **Young**) before thousands of viewers on The White House's official YouTube channel that COVID-19 "*vaccines are killing people of color...*" A black man (me) warns two white superiors of this alarming news. White superior disciplines black subordinate (me) because subordinate (me) informed them of what **Becerra** said.

Realizing there was nothing more that I could have done as a CDPH IO2 to alert Californians that COVID-19 vaccines are killing people, I placed Californians interest over my personal pecuniary interest and prematurely retired. I immediately incurred a 55 percent pay cut—the difference between my salary and pension—so state public health officials would not muzzle this information.

Since then I have urged California's 58 County Boards of Supervisors (BOS) in writing to direct their County Health Officers to stop offering COVID-19 vaccine. I emailed (in 58 specifically county addressed separate emails and PDFs) a five-page PDF to 296 county elected and 62 administratively appointed (358 total recipients) local officials throughout the state. My memo noted California Health & Safety Code 101025, which states, "*The board of supervisors of each county shall take measures as may be necessary to preserve and protect the public health.*" That memo ([source 6](#)) also urged BOS' to direct their County Health Officer to stop promoting, administering and distributing COVID-19 vaccine "*to preserve and protect the public health.*"

Having officially notified locally elected county officials in writing that COVID-19 vaccine should not be offered, I am now informing BOS' in-person. Here are the BOS locations and dates I've appeared thus far in 2024: Sacramento (Sacramento) 5/21, 6/4, 7/9 and 8/6; San Joaquin (Stockton) 8/13; El Dorado (Placerville) 8/20; Yolo (Woodland) 8/27; Solano (Fairfield) 9/10; Santa Cruz (Santa Cruz) 9/24; Alameda (Oakland) 10/1; Butte (Oroville) 10/8; Colusa (Colusa) 10/15; Placer (Auburn) 10/22; Marin (San Rafael) 10/29; Santa Clara (San Jose) 11/5; Nevada (Nevada City) 11/12; Glenn (Willows) 11/26; and Tehama (Red Bluff) 12/3. To date, I have personally attended fifteen BOS public meetings and informed BOS members what Secretary **Becerra**. I have forty three more BOS in-person appearances to go.

The purpose of my letter is to inform you and CNPA that COVID-19 "*vaccines are killing people,*" according to Secretary **Becerra's** own statement, VAERS data, and federal health officials knowledge that COVID-19 vaccines are linked to myocarditis (cited in [source 6](#)).

There's a plethora of anecdotal reports of people dying unexpectedly and dying suddenly, according to African-American award winning filmmaker **Jennifer Sharp's** "ANECDOTALS" documentary ([source 7](#)) —which is free to watch— and according to adult-geriatric nurse practitioner **Deanna Kline**, who sees sixteen to twenty patients a day. **Kline**, a United States Air Force veteran who has more than thirty five years of experience, estimated in her "*Vaccine Injuries, Lies, And Deaths* book, that (at least) between thirty to fifty million Americans are affected in some way by COVID-19 vaccine ([source 8](#)).

Many Californians, many Americans and indeed many people around the world are suffering silently in secret, and some don't even know why. By the way, more people would have seen **Sharp's** "ANECDOTALS" documentary had it not been censored by social media and had it received the coverage it deserved from mainstream media.

Injury-sparing and life-saving information about COVID-19 vaccine harm is unreported by CNPA's freelancers, weeklies, dailies, magazine, campus and digital publications. Californians are not being informed that COVID-19 vaccines are, for example, causing facial paralysis, miscarriages, turbo cancers, heart attacks, heart inflammations, seizures, strokes and sudden deaths.

State governmental officials throughout the United States are now acknowledging the harm COVID-19 vaccines have caused its residents.

The states of **Kansas** ([source 9](#)) and **Texas** ([source 10](#)) sued Pfizer for knowing and concealing that COVID-19 vaccine causes myocarditis, pericarditis, failed pregnancies and deaths. **Florida** State Surgeon General Dr. **Joseph Ladapo** advised on September 12, 2024, against patients over 65-years-old from using mRNA COVID-19 vaccines ([source 11](#)). **Idaho's** Southwest District Health (SWDH) seven-member board moved on October 22, 2024 “that SWDH no longer provides or administers the COVID vaccine,” (note [source 12](#)), thanks to persuasive presentations made by seven subject matter experts (SME).

Those SME's were SWDH physician representative Dr. **John Tribble**, Michigan cellular and molecular biologist Dr. **Christina Parks**; Idaho pathologist Dr. **Ryan Cole**; Texas cardiologist Dr. **Peter McCullough**; Florida obstetrician-gynecologist/maternal fetal medicine specialist Dr. **James Thorp**; Texas pharmacologist Dr. **David Wiseman**; and Washington state pediatrician Dr. **Renata Moon**.

I implore you to ignore google, which falsely and maliciously maligns these highly accomplished SME's as “conspiracy theorists,” and I invite you to objectively listen to their presentations ([source 13](#)). Here's the time stamp: Dr. **Tribble** (1:54:34); Dr. **Parks** (2:05:02); Dr. **Cole** (2:10:35); Dr. **McCullough** (2:27:23); Dr. **Thorp** (2:32:27); Dr. **Wiseman** (2:39:29) and Dr. **Moon** (2:57:00).

Therefore I formally request to meet with CNPA's Board of Directors and/or newsmedia members in any venue you deem appropriate, so SME's and I can explain about this public health crisis which some federal, state and local government officials know, but have kept this information from the general public. COVID-19 vaccine harm is unreported. There are a lot of human interest stories to report. Many Californians, many Americans and indeed many people around the world are suffering silently in secret, and some don't even know why because this issue is unreported.

Dr. **Thorp** is willing to speak to you regarding the dangers of COVID-19 vaccines. Regarding his background—Dr. **Thorp** was fired by St. Louis, Missouri's SSM Health St. Mary's Hospital, for telling his pregnant women patients about COVID-19 vaccine risks. Dr. **Thorp**, who has more than forty years of experience in the medical field, was offered a lot of money if he had only kept quiet, but he is a man of integrity. Again, Dr. **Thorp** spoke at the 2:32:27 mark of that “Southwest District Health October 22nd 2024 meeting recording.”

In addition to Dr. **Thorp**, Butte County resident **Julie Threet**, who is COVID-19 vaccine injured ([source 14](#)), and San Mateo County resident **Alix Mayer**, Chairman and co-founder of Free Now Foundation ([source 15](#)), are also willing to share with CNPA.

I implore you, for the sake of humanity, please help us inform Californians that COVID-19 “*vaccines are killing people...*” at an alarming rate. They have a right to know and CNPA’s newsmembers have an ethical and moral obligation to inform them.

Sincerely,

Ronald F. Owens Jr.
