CDPH MUZZLED TRUTH ABOUT COVID-19 VACCINE RISKS

- On April 14, 2022, Health and Human Services Secretary Xavier Becerra said this about COVID-19 vaccines: “*We know that vaccines are killing people of color, Blacks, Latinos, Indigenous People at about two times the rate of White Americans.*” (45:50 mark of 4/14/22 White House Convening on Equity” summit.
- On April 18, 2022, **informed** management about Secretary Becerra quote, **shared** information from VAERS that Californians have suffered allergic reactions, facial paralysis, miscarriages, heart attacks, heart inflammations, seizures, strokes, and sudden deaths from COVID-19 vaccines, **recommended** CDPH leadership, California Health & Human Services Secretary and Gov. Gavin Newsom be made aware.
- On October 13, 2022, revisited the alarming issue with CDPH management.

- From August and September 2023 until the time I retired on December 31, 2023, I informed CDPH about this public health emergency.

WHAT HAS NOT BEEN REPORTED

- White House officials, CDC officials, American Academy of Pediatricians, Dr. Anthony Fauci and CDC Director Dr. Rochelle Walensky knew in May 2021 COVID-19 vaccines were injuring and killing.
- Dr. Anthony Fauci received news on June 19, 2021 that he had blood clots in his lungs after taking the COVID-19 Moderna shot, but he didn't divulge that to anyone, according to his own writings widely reported as the Fauci Diaries.
- Dr. Anthony Fauci knew that COVID-19 vaccines have been injurious to pregnant women.
- As of July 31, 2006, there were **97, 505 COVID-19 vaccine injury California cases**, and from that number, sadly **764 Californians died from COVID-19 vaccines**, according to [MedAlerts.org](https://www.medalerts.org).
- These figures represents less than one percent. Add a couple zeroes to get actual vaccine injury California cases and deaths.
- **9, 750,500 vaccine injured and 76,400 deaths in California!**
